"The Torch --- Be Yours To Hold It High"

—From "In Flanders Fields" by Lieut.-Col. John McCrae (1872-1918)

## SERENADE IN BALMORAL WOODS

**PRINCESSES ELIZABETH** and Margaret Rose listen enraptured to the accordion music of Lord Malcolm Douglas-Hamilton and Hon. Andrew Elphinstone in the woods of Balmoral castle. A few days later the castle was closed and the royal children "taken to a place of safety." Below: The Queen inspects a Red Cross depot. Right: Their majesties chat with officers during a day-long visit to the armed forces

BEAUTIFUL ILONA MASSEY made her brief film debut in "Rosalie," then retired for a year and a half to perfect her English. Now she reappears with Nelson Eddy in "Balalaika"

## WATER IS HER WEAPON

**LITTLE HOLLAND** may prove to be the strategic crux of the war, military observers believe. Faathold in the Netherlands would give the enemy advanced bases for raids on Britain, but the sturdy Dutch, led by Queen Wilhelmina (above on horseback), are determined to resist invasion — literally — to the last ditch. Low areas like the scene at right, above, could be flooded to bog down attackers. Already "trial floodings" have been carried out. Below are Dutch women and children in native costume, and, lower right, a soldier of the colonial empire

## BELGIUM PREPARED TO OFFER "DISPUTED PASSAGE"

**FISH STORE**—Belgium style: Soles, a favorite food, are offered for sale on racks placed on the sidewalk.

**WHEN GERMANY ATTACKED IN 1914**, Belgium had only 100,000 men mobilized, compared with 1,300,000 men today. In addition, a "boby Maginot line" faces the German frontier, a triple ring of defences with tank troops, underground emplacements for machine-guns and rapid-firing artillery. Another stumbling-block for invaders is the 75-mile-long Albert canal, 250 feet wide and 15 to 20 feet deep. Belgian troops at manoeuvres are shown above crossing a stream in the Ardennes forest by means of a pontoon bridge.

**KING LEOPOLD** of the Belgians made a strong bid for maintenance of peace before war started; since has given personal leadership to his subjects in the nation's preparedness.

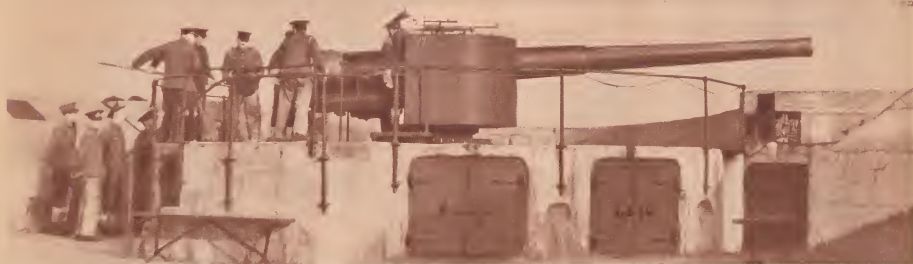

**COURTRAI ON THE LYS** is an age-old monument to Belgian integrity, scene of the famed "battle of the golden spurs." In 1302, an army of Frankish knights, so richly equipped that even their spurs were solid gold, invaded the country and were met by a determined force of low-land burghers. Hundreds were slain as they tried to cross the river, and after the battle the banks were strewn with golden spurs. Above: The bridge and ancient stone towers of Broel.

# CANADIAN COASTLINE GUARDED BY LAND, SEA, AIR

**CANADA'S SMALL** but efficient navy is proud of its record—never a ship lost in convoy. Two destroyers are shown at their berths in Vancouver harbor

**THE THREE SERVICES** co-operate in the patrol and protection of Canada's eastern and western seabords. The photograph

above shows a defence gun, pointing out to sea "somewhere in Nova Scotia," manned by members of the First (Halifax) Coast Brigade

**OUT OF THE SEA** under its own power roars a big Royal Canadian Air Force amphibian. Aboard is Canada's leading airman and hero

of the great war, acting Air Commodore W. A. Bishop, V.C., on an inspection visit to the air base at Jericho, British Columbia

**ENGLISH SCENE:** The autumn sun shines, a gardener clips, an elderly man reads on a pathside bench—and Premier Chamberlain

strolls in St. James' park with his wife prior to making a momentous speech to the Mother of Parliaments on the war's progress

Give her what you'd be proudest to receive

## COGS IN OTTAWA MACHINE

"IT'S OTTAWA'S YEAR," the eastern football sages are saying. And here are four reasons why the Rough Riders have been riding roughshod over their opposition so often this fall: Wilf Tremblay (left above) is regarded as one of the greatest French-Canadian footballers in many a year. He is a superb runner and pass receiver. Sammy Sward (above), a fine secondary defence

back and distance kicker. The youthful veteran Ernie McWatters (extreme left) is a canny field general, and Andy Tommy (80) does everything but kick — and does it well

# HAPPY MORNINGS NOW

After Late Hours... Too Much Festivity

"ALKALIZE" UPSETTING STOMACH  
ACIDS THIS AMAZING  
PHILLIPS' WAY

"I'LL BE A  
WRECK—  
TOMORROW"

Take 2 tablespoonfuls of  
Phillips' Milk of Magnesia  
in a glass of water.

You'll feel wonderful in the  
morning and do a swell job.

**Wake up clear-headed and peppy... no acid  
upsets or headache**

It's hard to avoid it if you're friendly and gay... AND IF you over-indulge — eat or drink too much... stay out all hours... you're due to "pay the piper" in the morning. You're in for a session of OVER-ACIDITY of the stomach that can get you really down and spoil the whole next day. There's no use to fool with slow, makeshift remedies or "potions." Only a thorough, FAST ALKALIZATION can combat excess stomach acidity.

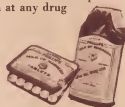

The QUICK, EFFECTIVE way is to follow the routine in the pictures here... with, remember, genuine Phillips' Milk of Magnesia... one of the most remarkable alkalisers known. Just two tablespoonfuls at bedtime and two in the morning with your orange juice... that's all.

But the results: You will literally be astonished. You'll be on top of the world when you wake up. For, while you sleep, that Phillips' goes to work to thoroughly neutralize the excess stomach acids over-indulgence brings on. No "morning-after" depression. No nausea. It's wonderful... you're alert... full of vitality... at your best.

Try this remarkable method after your next party. See for yourself what it does.

But to get the results you want, be sure it's genuine Phillips' Milk of Magnesia. Get either liquid or tablet form at any drug store.

# WORLD'S PRECISION RECORD

*Captured  
by the Omega Watch  
Under the Supervision of  
the British Government*

When purchasing a watch you should first consider its value as a timepiece—not as an ornament. Unfortunately, many people are unduly influenced by the design or appearance of the case. Frequently, they discover that the watch they purchased cannot be relied upon to tell the correct time. Since 1848, Omega Watches have been famed for their precision. In 1933, Omega captured the World's Precision Record under the supervision of the British Government, and has held it for the last six consecutive years. Season after season, style authorities await with eager anticipation the showing of Omega's new case designs.

Miraculous precision functioning for a lifetime in cases of unique design and beauty have combined to make Omega the choice of those who demand **accuracy and appearance** when purchasing a timepiece.

## Proper hair care too much trouble?

Just because you can't visit the hairdresser every week, don't let your hair and scalp suffer. With Danderine handy, that's needless!

For thanks to its active formula, using Danderine wastes no time, and is no trouble. Just sprinkle a few drops of Danderine on your brush or comb before you arrange your hair. Or if you like, apply it directly with your finger tips. Dan-

derine does not depend on friction to be effective; therefore, tedious massage is not necessary.

Use Danderine this way, daily, and keep your scalp feeling more "alive"—your hair free from ugly loose dandruff; looking more lustrous, and holding its wave longer! Start now. A bottle of Danderine lasts many, many days, and costs very little at any drugstore.

## THEY GUARD OUR SECRETS

"YOU CAN'T PRINT THAT!" has to be said sometimes during war. It's the job of Walter Thompson, director of censorship for Canada, to see that it is said firmly but no more often than necessary. He's a former newspaperman.

## Even if there has been Diabetes in your family--

THERE is no cause for undue alarm even though your mother or father did have diabetes. Unless the disease occurred in both of your parents' families, you probably are not predisposed to it. Nor is it inevitable that a person with such a diabetic heredity will develop an active case of the disease. In fact, by taking certain precautions he may avoid it.

Among predisposed persons diabetes is more likely to appear in those who are stout. Anyone who knows or suspects the occurrence of diabetes in his family history should be especially careful to avoid overweight. The extensive records of one physician show that only 5% of his adult diabetic patients were underweight before developing the disease.

Early discovery is another protection against the dangers of diabetes, because in the beginning many cases are mild and not difficult to control. Physicians usually advise anyone with diabetes in the family to have periodic health examinations, including a urinalysis and a blood sugar test.

The outlook today is extremely hopeful for the person who develops diabetes. Treatment is based, in part, upon a simple diet of common foods prescribed by a physician. The modern diabetic diet is planned to keep the patient at, or slightly below, the normal weight for his age and height. In addition, insulin is usually required to supply what the body lacks. This combination has happily done away with the old-time starvation diet.

The slower action type of insulin called protamine zinc insulin is widely used today. This brings many patients one step closer to normal living as it is usually taken only once a day.

Today diabetes can be controlled if full use of modern medical knowledge is made in time and patients co-operate with the physician during treatment.

The Metropolitan free booklet "Diabetes" discusses some of the ways to guard against the disease, describes its signs and causes and the modern type of diabetic diet. A copy is available upon request. Address Booklet Dept. 11-W-39, Canadian Head Office, Ottawa.

**THE SCENE HAS CHANGED** in war's theatre, but Britain, with all the world for a stage, must play many parts. And early weeks of war have tended to confirm what cautious Britons always hold—that naval might remains war's decisive factor

"This will soon fix you," said Mrs. Blake. "Sal Hepatica works two ways to chase a sickish feeling fast—so try it."

**What a game!** And what a change in Bill Blake. His head soon cleared, his sickish feeling vanished when Sal Hepatica's speedy double action tackled the conditions (accumulated wastes and excess acidity) that were dragging him down.

## To feel better—faster

Rely on Sal Hepatica's Double Help

**SAL HEPATICA** is the mineral salt laxative especially made to do these two things for you:

1. **Cleanse the intestinal tract of wastes.**
2. **Help nature to combat excess acidity.**

When you're headachy, have an upset stomach, feel dull and listless, most likely you're suffering from the effects of two conditions . . . wastes in the system *plus* excess acidity. Because, usually, these two conditions go together—each aggravating and prolonging the effect of the other.

And before you can really feel better, both must be corrected. Tackling just constipation and ignoring the acid condition is but a half-way measure. So take Sal Hepatica, because it combats both!

Don't let that under-par feeling keep you from enjoying life. Next time you wake up feeling dull and

listless, or have a sick headache, take two teaspoonsful of Sal Hepatica in a glass of water. See how quickly your energy and vitality come back to normal when Sal Hepatica attacks both of the conditions that drag you down.

**GOLD FOR OIL** is demanded of the Nazis by Rumania. Because Germany is short of cash, fuel for her 1,000 and one machines of war moves but slowly into the Reich. Lines of communication, too, are limited. The Black Sea-Hamburg route is blocked by the Allied navies, river and rail shipment is inadequate. Above: Oil well in the Ploesti area of Rumania

The news has spread from coast to coast

Now—dismiss this old worry! To endure that mounting fear of embarrassment is old-fashioned—unnecessary. Today, the new Miracle Modess gives you a new sense of security! For "moisture zoning" brings greater absorbency—greater peace of mind. This new feature, along with Modess' famous moisture-resistant backing, makes Modess doubly reassuring.

Now—forget this old discomfort! No longer need chafing discomfort on difficult days spoil your walking, your dancing. Moisture zoning acts to hold moisture inside the pad. ## "LITTLE UKRAINE" IN AMERICA

**LIVING IN WANT ON RICH ACRES** of the Russian Ukraine under oppressive landlords, a few hundred dissatisfied peasants emigrated to Mexico in 1904, settled in the fertile Guadeloupe valley near the California border, and prospered. Today the community has grown to over 3,000 souls

**THE "MEXICAN UKRAINIANS"** have retained their customs and religion, and the women wear their traditional dress. Only the tropical foliage in the Sunday morning scene above marks the difference between their new home and the old land. The blonde children, so different in appearance from their Mexican neighbors, learn both Ukrainian and Spanish in their community schools (below)

### Avoid Dry Scalp and have Lovely, lustrous hair

Soft, silken, natural-looking hair adds immeasurably to personality and charm—but you simply cannot have lovely hair and DRY SCALP too. Dry Scalp is common in Canada with our dry winds, bright sunshine, extremes of heat and cold. Hair loses some of its natural oil, becomes brittle, unmanageable, dull.

"Vaseline" Hair Tonic is the dressing that ends dry scalp. Easy to use, contains no alcohol. Before shampooing your hair, or having it shampooed at your hair dresser, part the hair and sprinkle a few drops of "Vaseline" Hair Tonic right onto the scalp and massage briskly with the fingertips. The massaging alone, stimulates the flow of natural oils.

But the tonic supplements these natural oils, leaves the scalp soft and pliable and the hair beautiful. Try this economical treatment and see how it helps keep your hair as you want it—lustrous, lively, natural. Made by Chesebrough Manufacturing Co., Cos. d., 5520 Chabot Ave., Montreal.

A few drops supplement the natural scalp oils, keep your hair manageable and good-looking.

"There isn't the quantity in the larger bottle."

*Lady Esther asks*  
**"Where's the girl who wants  
 to be Lucky in Love?"**

Why let the wrong shade of powder hold you back?  
 Find the shade of my powder that's lucky for you.

ARE YOU a "powder-guesser"?—a girl who merely *thinks* her powder is *really right*—the lucky powder for her? Can you be sure the shade you use today doesn't actually age you—or dim the freshness of your skin? It's so very difficult to *know*. For powder shades are always deceiving, and unless you compare them *right on your own skin* you may never find the one shade that makes you a *lover* and a *luckier* you.

I know that this may seem hard to believe. Yet I have seen hundreds of girls innocently sacrifice their own good looks. Innocently, they were using a powder shade that made their skin look coarse...made them look older...spoiled their beauty when eyes look close.

Don't risk it—please! Find among my ten thrilling new shades of powder the one shade that can bring you luck!

Your Lucky Shade. Send for all ten

of my samples which I'm glad to send you *free*. Try all ten of my shades. Don't skip even one! For the shade you never thought you could wear may be the one *really right* shade for your skin!

The minute you find it, your eyes will know! Other women will tell you that you look fresher and younger...and men will say to themselves, "She's lovely."

**A True Beauty Powder.** When you receive my ten shades—and make your "Lucky Shade Test"—you will find two amazing qualities in this superfine powder. It's free from the slightest hint of coarseness. And it goes on so smoothly that it clings four full hours! If you use it after dinner, you will be carefree of powder worries until midnight.

So write me today for the ten shades of my powder...free. Find your lucky shade—and let it flatter your beauty *always!*
